Objective

I am a Frontend Developer with 9 months of experience in designing and developing responsive, user-friendly web applications. Proficient in HTML, CSS, Javascript and modern frontend framework, with a keen eye for UI/UX design. Seeking to leverage my skills in building interactive and scalable web solutions while continuously enhancing my technical expertise in a dynamic.

Experience

- IT WEBHUT** 01/07/2024 - 18/03/2025
Frontnd Developer
Responsibility
 - Develop responsive and user-friendly web pages using HTML, CSS, JavaScript, and modern frontend frameworks to ensure seamless user experiences across all devices.
 - Conduct manual testing of websites to identify and resolve UI/UX issues, cross-browser compatibility, and performance bottlenecks.
 - Create detailed test cases for websites to validate functionality, usability, and design consistency.
 - Integrate third-party APIs into web applications, ensuring smooth communication between frontend and backend systems.
 - Collaborate with designers, backend developers, and stakeholders to implement visually appealing and high-performing web solutions.

Education

- Govt. P.G College(CCSU)** 2019-2022
B.Sc(Computer Science)
- Amity University** 2023-2025
MCA

Skills

- HTML
- CSS
- Bootstrap
- Javascript
- GitHub

Projects

- Face Detection App**
Our Face Detection App utilizes the capabilities of ReactJS to accurately detect faces in user-uploaded images. This interactive web application ensures a seamless experience, allowing users to upload images and instantly view detected faces highlighted with bounding boxes.

Interests

- Interested to learning about new technology
- Try to make network with professionals
